

FUEL CONTAINER TRANSPORT TO MACKINAC ISLAND

Shepler's Mackinac Island Ferry cannot accept fuel containers that either are filled with fuel or have been filled with fuel on their passenger ferries.

Knowing that many of you rely on Shepler's to get fuel cans to the island for your use after the race, Chris Shepler has offered the following:

- Shepler's will accept fuel containers at their docks in St. Ignace and Mackinaw City.
- Shepler's will label all containers...1 of 2, 2 of 2 with the owner's name and name of the yacht.
- Shepler's will collect \$10.00 per container as a delivery charge for taking the containers to Arnold Freight on Monday morning.
- Shepler's will not fill the containers, so you will need to do this prior to drop off.
- The guest will need to pick up the containers at the Coal Dock (Arnold Freight Dock) any time after noon on Monday.
- Arnold Freight will have a charge for shipping the containers to the Island and the guest will need to pay Arnold Freight upon pickup.
